Published by the British Interplanetary Society

Apollo 12 -The NASA Mission Reports Vol 2

Robert Godwin
Apogee Books,

2004, 192 pp, £15.95, (US \$24.95),
ISBN 1-894959-16-7.

This book follows the well known format of re-producing material relating to the mission. It is an excellent companion to Volume 1, and as usual, it has a DVD with over three hours of material including training shots and launch footage. This series of books are creating a library for those that are interested in the early US manned missions and this is a welcome addition.

Rex Hall
